

# The Republic of Colombia has a constitutional jurisprudential precedent identified as T622 of 2014, this sentence reaffirms the importance of the accurate diagnosis of *INTERSEXUAL* patients and updates how the state looks at them.

Chahín, S\*, Mejía, F\*\*.

\*Paediatric Endocrinologist – Bogotá, Colombia.

\*\*Lawyer – Colombia.

## Cause

The Colombian Society of Urology published in May 1993; *A Modern Approach to Sexual Ambiguity Syndromes* which discusses sexual differentiation and sexual disorders associated with sexual development to determine a binary gender with surgical reconstruction

## Objective

Gather the members of ACEP (Colombian Association for Pediatric Endocrinology) to clarify, update and create an approach of human sexuality from a *biosociocultural* perspective on genito-urinary *normoconfiguration* and *expose genotypic effects from the sexual differentiation process of conception, gestation and embryo inside the uterus. However, it only starts to exist in the legal system* once its separated from the umbilical cord and takes its first breath with complete *autonomy*. All of this in regard to the civil legislation of the Republic of Colombia.

Silvia Chahín Ferreyra MD., Paris, Francia – Septiembre 2016.

NOTE: There is no conflict of interest

## Materials

**T-622 OF 2014 CONSTITUTIONAL COURT OF COLOMBIA.**

## Conclusions

**RECOGNIZE** the safeguarding of all the fundamental rights affecting the patients sexual identity, noble life, health, human diagnostics, sexual and reproductive rights in favor of the pro-child rule (*Pro-infancia*).

**PROTEC** the right to privacy

**DEMAND** to both public and private health insurance institutions to inform, educate and raise awareness of all consequences regarding genital readjustment surgery and sex allocation treatments. All with informed consent of the patient and his parents about the final decision with an interdisciplinary team present for any assistance.

**RESTRUCTURE** the official protocols for the management in health institutions regarding patients' that desire sexual readaptation with a leading medical crew.
